

Put SureGrain on your phone

Add the intake calculator to your home screen. It opens like an app and works offline at the intake bay.

FOUR STEPS ON AN ANDROID PHONE WITH CHROME

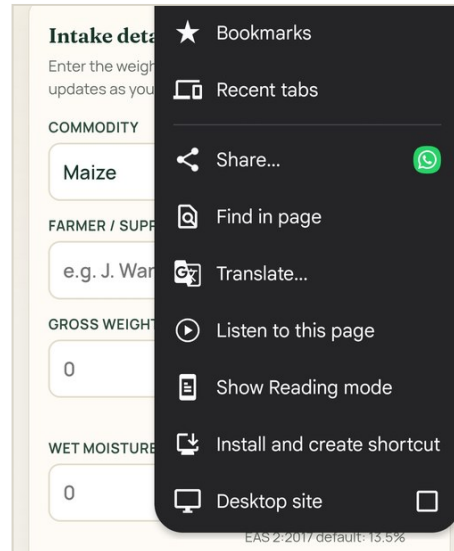

1 Open it in Chrome

Go to kevman.co.ke/suregrain in Chrome.

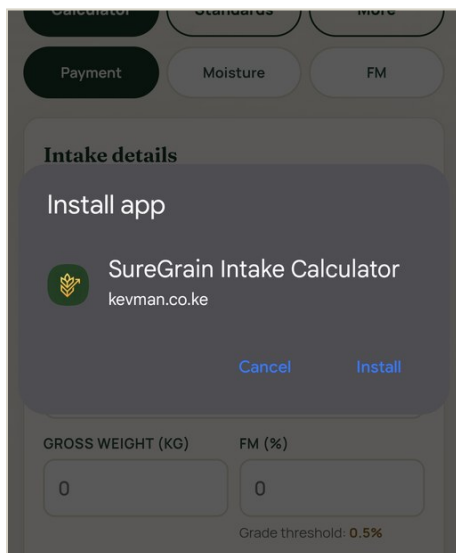

2 Install and create shortcut

Open the menu (three dots). Older phones say Add to home screen.

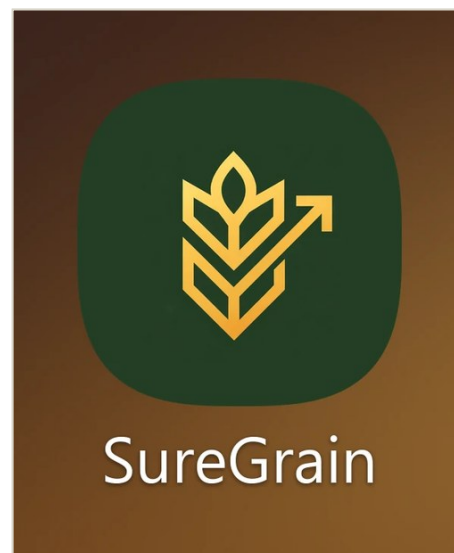

3 Tap Install

Confirm with Install to save it to your phone.

4 Open it from your apps

Tap the SureGrain icon. It runs online or off.

On an iPhone open the page in Safari, tap Share, then Add to Home Screen. Chrome on iPhone cannot pin pages.
Not showing? The page opened in an in-app browser. Open it in Chrome or Safari first, or ask us on WhatsApp.
It works out FM deduction, moisture shrink and the farmer payment, with EAS 2:2017 and EAS 51:2017 limits built in.
